

UnitedHealthcare

H1N1 "Swine" Flu Vaccine Participating Pharmacies

UnitedHealthcare has established a unique partnership with the following pharmacy chains administering the H1N1 flu vaccine. Simply show your member ID card, and photo identification if requested, when receiving the vaccine. There's no up-front cost for you. The pharmacies will submit a fee to UnitedHealthcare for administering the vaccine. We will fully cover this fee for all insured members and debit self-funded client accounts accordingly.

Please call the pharmacy first to make sure they have the vaccine, and are participating in this unique UnitedHealthcare program. This pharmacy list was updated on Jan. 27, 2010. More pharmacies will be added in the next few weeks.

Pharmacies listed in this attachment only reflect large national or regional chains that have signed H1N1 roster billing agreements with UnitedHealthcare. If you do not see your pharmacy listed, please call them directly and ask if they are participating or intend participating in the UnitedHealthcare H1N1 vaccine administration program.
