

2012 Medicare Part D Pharmacy Plan List

Please note: As a courtesy, UnitedHealthcare has engaged our partner, OptumInsight, to perform a bulk testing of our standard benefit designs to satisfy the actuarial value test of the creditable coverage determination. However, according to CMS guidelines, the employer has the ultimate responsibility to determine/confirm whether its plan, as implemented, offers creditable coverage.

1. General Instructions

- a. Search for a plan with the same Copay/Coinsurance, Deductible and Out of Pocket (OOP) as yours.
- b. "Pass" means that your plan is creditable
- c. "Fail" means that your plan is not creditable

2. This list has been split into plans with embedded deductibles and plans with non-embedded deductibles

- a. Embedded Deductible-when any one family member reaches the individual deductible amount, that individual will begin receiving pharmacy benefits
- b. Non-Embedded Deductible-any combination of family members need to reach the family deductible prior to any individual receiving pharmacy benefits

3. Deductibles on this list are integrated medical/pharmacy. These amounts must be reached prior to pharmacy benefits kicking in

- a. If a deductible does not need to be satisfied prior to pharmacy copays/coinsurance, please search for your copay/coinsurance and deductible and OOP amount of "N/A"
- b. If your plan has a pharmacy-only deductible, you will need to request a custom creditable coverage test

4. Determination Guidelines

- a. If you cannot find a plan with the exact copay/coinsurance as your plan, you will need to request a custom creditable coverage test
- b. If you find a plan with the same copay/coinsurance as your plan, but cannot find a deductible or OOP match, you can make a determination relative to another plan on the list. Please reference the examples directly below

b1. Your Plan Passes if....You can find a less benefit rich plan than yours (with the same copays/coinsurance and a greater than or equal Deductible and OOP) that Passes

Example: 7/25/45 copay, 900/1800 Embedded Deductible, 1800/3600 OOP passes because 7/25/45 copay, 1000/2000 Embedded Deductible, 2000/4000 OOP is listed as "Pass"

b2. Your Plan Fails if....You can find a richer plan (with the same copays/coinsurance and a lesser than or equal Deductible and OOP) that Fails

Example: 10/25/50 copay, 1700/3400 Non-Embedded Deductible, 3400/6800 OOP fails because 10/25/50 copay, 1600/3200 Non-Embedded Deductible, 3200/6400 OOP is listed as "Fail"

5. Custom Testing

- a. For all custom creditable coverage testing, please contact Adam Volin at adam.volin@Optum.com or 212-817-6012

Please Note:

- a. Results assume all drugs (including preventive) have the same coverage. If this is not the case, a custom creditable coverage test will be required.
- b. If an HRA plan with an employer contribution is listed as "Fail", a custom creditable coverage test will be required.

UHC/Oxford Plans
