

RAE Administrative Payment Report

RAE Name	Region Number	State Fiscal Year	Reporting Period
Rocky Mountain Health Plans	1	20/21	1-Jul-20 30-Jun-21

Purpose: As part of the contract (Section 12.13.6), each Regional Accountable Entity (RAE) is required to provide a detailed report of the payment arrangements made with its PCMP Network and Health Neighborhood. Specifically, this report should include descriptions of payment arrangements for all the RAE's PMPM Administrative Payments and any Key Performance Indicator (KPI) incentive payments to their contracted PCMPs. These arrangements should involve varying payment models and payment amounts for varying types of service. This deliverable provides a high level description of each RAE's payment arrangement strategy.

Instructions: Please complete the following table with the requested information below. Please do not include information on behavioral health PMPM payments, as these are considered service payments. Please include any supplemental and supporting documentation and policies as necessary.

Definitions: Members with complex care needs: Members identified by the Department using clinical and cost information provided to each RAE on a monthly basis.

Description: In the box below, please give a high level overview (4-5 sentences) of your strategic approach to your arrangements. Please clarify payment reform, practice transformation, and network capacity assumptions used to develop your approach. This document contains the expected financial support from Rocky Mountain Health Plans (RMHP) to Primary Care Medical Providers (PCMPs) and the Regional Accountable Entity (RAE) Health Neighborhood for State Fiscal Year (SFY) 2020 - 2021. The amounts in this workbook reflect RMHP's current contracts and do not reflect anticipated changes that RMHP will make to align provider and stakeholder payments with the Department of Health Care Policy and Finance's Population Management Framework. Amounts listed in this document are for reporting purposes only. All payment obligations are formally and exclusively defined in each provider's contract with RMHP. RMHP has a four tier payment structure for PCMPs, ranging from Tier 1 practices that are open to all Medicaid Members and have accomplished the highest demonstrated practice transformation competencies and Tier 4 practices that meet minimum participation requirements. Details on each tier are included in the *Tier Details* tab.

¹ For RAE attribution, a practice must accept geographic-proximity auto attributions, also known as auto-assignment, for all quarters in which they intend to operate as a Tier 1 practice. If geographic auto-attribution exceeds a panel limit set by the practice, the practice must adjust it in the Department's PCMP system appropriately in order to receive additional member assignments—no later than the first day of the next calendar quarter. The practice should consult in advance with RMHP if it reasonably expects a panel limit to affect auto-attribution and Tier 1 status.
