

Mileage Reimbursement

Just Got a Whole Lot Easier

Need to schedule transportation for a Medicaid covered service? Consider mileage reimbursement!

With the new mileage reimbursement app on your smart phone, you can now view and submit claims electronically. Soon, you will be able to submit both your transportation requests and mileage reimbursement at the same time.

For your convenience, your Reimbursement Funds are added directly to a MasterCard debit card.

The app eliminates:

Paperwork and bringing trip log sheets to appointments

Calling to obtain trip numbers and any errors entering them

Cost of faxing and mailing reimbursement requests

How to get started:

Ask about the mileage reimbursement app the next time you call reservations to schedule transportation for a Medicaid covered service. Be sure to have your smart phone or tablet and a valid email address with you.

Reservation contacts:
UnitedHealthcare - Michigan
(800)-903-5253 or (877)-892-3995
