The right care.

UnitedHealthcare Community Plan does utilization management (UM). All managed care health plans do. It's how we make sure our members are getting the right care at the right time and in the right place.

A doctor reviews requests when care may not meet guidelines. Decisions are based on care and service, as well as your benefits. We do not reward doctors or staff for denying services. We do not pay anyone for providing less care.

Members and doctors have the right to appeal denials. The denial letter will tell you how to appeal.

Questions? You can talk to our staff. They are available 8 hours a day during normal business hours. If you need to leave a message, someone will call you back. TDD/TTY services and language assistance are available if you need them. Just call **1-866-270-5785, TTY 711**, toll-free.

Your partner in health.

How to choose the right PCP.

Your primary care provider (PCP) provides or coordinates your health care. You should see your PCP for well visits, immunizations and important screenings. Your PCP can help you lead a healthier lifestyle by providing tools to help you lose weight or quit smoking.

You want to feel comfortable talking with your PCP. You need a PCP with an office location and hours that work for you. You may want a PCP who speaks your language or understands your culture. You might prefer a male or a female PCP.

Teens have different health care needs than children. It may be time for your teen to switch to a doctor who treats adults. Your daughter may need a woman's health provider such as an OB/GYN.

If your PCP isn't right for you, you can switch at any time. You can learn more about plan providers online or by phone. Information available includes:

- Address and phone number.
- Languages they speak.
- Qualifications.
- Medical school or residency (available by phone only).
- Specialty.
- Board certification.

By the book.

Have you read your Member Handbook? It is a great source of information. It tells you how to use your plan. It explains:

- Your member rights and responsibilities.
- The benefits and services you have.
- The benefits and services you don't have (exclusions).
- What costs you may have for health care.
- How to find out about network providers.
- How your prescription drug benefits work.
- What to do if you need care when you are out of town.
- When and how you can get care from an out-of-network provider.
- Where, when and how to get primary, after-hours, behavioral health, specialty, hospital and emergency care.
- Our privacy policy.
- What to do if you get a bill.
- How to voice a complaint or appeal a coverage decision.
- How to ask for an interpreter or get other help with language or translation.
- How the plan decides if new treatments or technologies are covered.
- How to report fraud and abuse.

Get it all.

Prepare to see your provider.

Preparing for your provider's visit can help you get the most out of it. So can making sure your provider knows about all the care you have. Here's how you can take charge of your health care:

- 1. Think about what you want to get out of the visit before you go.** Try to focus on the top 3 things you need help with.
- 2. Tell your provider about any drugs or vitamins you take on a regular basis.** Bring a written list. Or bring the medicine itself with you.
- 3. Tell your provider about other providers you may be seeing.** Include behavioral health providers. Mention any medications or treatment they have prescribed for you. Also bring copies of results of any tests you have had.

Ask Dr. Health E. Hound[®]

Q: When does my child need to see the PCP?

A: It's important to have well-child visits with your child's primary care provider (PCP) on time. These visits may also be called checkups or Early and Periodic Screening, Diagnostic and Treatment (EPSDT) visits. Take your baby for well-child visits at the following ages:

- 3 to 5 days.
- 1 month.
- 2 months.
- 4 months.
- 6 months.
- 9 months.
- 12 months.
- 15 months.
- 18 months.
- 24 months.
- Once a year after 24 months.

At well-child visits, your child's PCP will make sure your child is growing and developing well. Your child will get any tests and vaccines he or she is due for. The PCP will answer your questions about your child's health.

Beat the rush. If your child is due for a checkup, call to make an appointment today. Don't wait until the summer, when pediatrician offices are very busy. Bring any school, sports or camp forms you need filled out to the appointment.
