## Get connected

Download the UnitedHealthcare mobile app. It's designed for people on the go. Find it on the App Store or Google Play, or scan here.

## We care for you

We give our providers tools, so they can best care for our members. These tools are called clinical practice guidelines. They tell the providers about how to manage illnesses and promote wellness. The guidelines cover care for a variety of illnesses and conditions like diabetes, high blood pressure and depression. They also give information on how to stay well with proper diet, exercise and recommended vaccines.

**Learn more.** For more information, visit [uhcprovider.com/cpg](http://uhcprovider.com/cpg).

## Racism and mental health

Over the past year, the media has shared stories of police brutality, hate crimes and other forms of racial discrimination. Talking about the effects of racism isn't always easy. But let's start the conversation. If racism is taking a toll on your mental health, you're not alone. Help is available.

If you think you are experiencing race-based trauma or stress, you can get help from a multicultural or racial trauma-informed therapist. These therapists work to create an open, culturally affirming and empowering space for you to heal.

It's important to find a mental health provider you feel comfortable talking with and trust. This is important for preventive care, too. You should see your primary medical provider every year for an annual wellness visit. This gives your provider a chance to catch problems early, when they are easier to treat.

**Find a provider.** We can help you find a mental health or primary medical provider who is a good fit for you. Visit [uhcommunityplan.com/in](https://uhcommunityplan.com/in).

# Fight the flu

## It's time for your annual flu vaccine

The Centers for Disease Control and Prevention (CDC) recommends that everyone 6 months and older get the flu vaccine each year. It is available in the fall and winter months.

With COVID-19 still in the picture, it's especially important to get a flu shot this year. It is the first and most important step in protecting you and your family against the flu.

If you have not gotten the COVID-19 vaccine yet, talk to your provider about when you should get it. The FDA-authorized COVID-19 vaccines have been proven to be safe and effective for most people ages 12 and older.

**It's your best shot.** There is no cost to you for the flu or COVID-19 vaccine. You can get them at any clinic or pharmacy that accepts your plan. Visit [uhcommunityplan.com/in](https://uhcommunityplan.com/in) to find a location near you.

## Living with sickle cell disease

Sickle cell disease is an inherited blood cell disorder that is present at birth. Some people with sickle cell disease can get a bone marrow transplant to cure it. But that treatment is not the best choice for everyone because it comes with serious risk.

If you're living with sickle cell disease, here are 3 tips to help you stay healthy:

- 1. Build healthy habits.** Eat healthy foods, drink lots of water and get plenty of sleep and exercise.
- 2. Prevent infections.** Wash your hands frequently with soap and water for at least 20 seconds. Make sure you have regular checkups with your provider, and take your medications as directed.
- 3. Stay informed.** New ways to treat sickle cell disease are being discovered. That's why it's so important for you to see a sickle cell specialist who can help you decide if the latest treatments are right for you.

# Know your drug benefits

## Find out more online

Visit our website to learn about your prescription drug benefits. It includes information on:

- 1. What drugs are covered.** There is a list of covered drugs. You may need to use a generic drug in place of a brand-name drug.
- 2. Where to get your prescriptions filled.** You can find a pharmacy near you that accepts your plan. You may also be able to get certain drugs by mail.
- 3. Rules that may apply.** Some drugs may only be covered in certain cases. For example, you might need to try a different drug first. (This is called step therapy.) Or you might need approval from UnitedHealthcare to use a drug. (This is called prior authorization.) There may also be limits to the amount you can get of certain drugs.
- 4. Any costs to you.** You may have copayments for prescriptions.

**Look it up.** Learn more about your drug benefits at [uhcommunityplan.com/in](https://uhcommunityplan.com/in). Or call Member Services toll-free at **1-800-832-4643**, TTY 711.

# Know your risk

Breast cancer and cervical cancer are 2 of the most common types of cancer in women. Here are some factors that may put you at an increased risk for getting them.

Breast cancer risk factors	Cervical cancer risk factors
Are age 50 or older	Have been infected with human papillomavirus (HPV)
Started your period before age 12 or started menopause after age 55	Have had other sexually transmitted infections (STIs)
Have a mother, sister or daughter who has had breast cancer	Have a mother, sister or daughter who has had cervical cancer
Are not physically active	Have had many sexual partners
Drink alcohol or smoke	Smoke

It's important for all women to get screened for these cancers as recommended by the Centers for Disease Control and Prevention (CDC). Screenings can help catch them in their early stages, when they are easier to treat.

## Resource corner

**Member Services:** Find a provider, ask benefit questions or get help scheduling an appointment, in any language (toll-free).

**1-800-832-4643, TTY 711**

**Our website:** Find a provider, view your benefits or see your ID card, wherever you are.

**uhcommunityplan.com/in**

**NurseLine:** Get health advice from a nurse 24 hours a day, 7 days a week (toll-free).

**1-800-832-4643, TTY 711**

**Quit tobacco use or vaping:** Reach out to the Indiana Quit Line to receive coaching and supplies (toll-free).

**1-800-QUIT-NOW  
(1-800-784-8669)**

Breast cancer screening guidelines	Cervical cancer screening guidelines
Mammograms, which are an X-ray of the breast, should be done every 1 to 2 years for women age 50 or older.	Women between the ages of 21 and 29 should get a Pap smear every 3 years, then Pap and HPV tests every 5 years between the ages of 30 and 65. Testing can end at age 65 for women with a history of normal results.

### Make a screening plan.

Talk to your provider about screening for breast cancer and cervical cancer. If you need to find a provider, we can help. Call Member Services toll-free at the phone number listed in the resource corner to the left. Or visit **uhcommunityplan.com/in**.

Contract services are funded under contract with the State of Indiana. UnitedHealthcare Community Plan does not treat members differently because of sex, age, race, color, disability or national origin.

If you think you were treated unfairly because of your sex, age, race, color, disability or national origin, you can send a complaint to:

Civil Rights Coordinator  
UnitedHealthcare Civil Rights Grievance  
P.O. Box 30608  
Salt Lake City, UTAH 84130  
**UHC\_Civil\_Rights@uhc.com**

You must send the complaint within 60 calendar days of when you found out about it. A decision will be sent to you within 30 calendar days. If you disagree with the decision, you have 15 calendar days to ask us to look at it again.

If you need help with your complaint, please call Member Services at **1-800-832-4643**, TTY **711**, 8 a.m. – 8 p.m. EST, Monday – Friday.

You can also file a complaint with the U.S. Dept. of Health and Human Services.
