

HealthTalk

Your journey to better health

Stay covered – watch for important information from your state

The rules to keeping your Medicaid coverage may be changing. Watch for a message from your state's Medicaid agency. It will tell you what you need to do to keep your coverage.

Plan benefits

Community Resources

Where to turn for help.

UnitedHealthcare Community Resources connects you to programs across the country that offer support at low or no cost.

Find help in your area, including:

- Back-to-school clothes and supplies
- Transportation assistance for school or work
- Food pantries and community gardens

To get started: Open the **UHC mobile app** and tap the **Community Resources** tile found under **Benefits**.

Heart health

Medications, blood pressure and heat

Hot weather can be harder on people with high blood pressure, especially if they take medicine. Some blood pressure medicines can make you lose more water. When it's hot and you sweat more, this can lead to dehydration.

Other medicines can make it harder for your body to cool down or adjust to the heat. Heat can also lower blood pressure by causing blood vessels to relax. Together, heat and medicine can sometimes make people feel dizzy or weak.

Drinking water, staying cool and paying attention to how you feel can help protect your heart during hot weather.

Preventive care

Keep your skin safe from the sun

Spending time outside is fun and good for your health. It helps you move your body and feel less stressed. You can enjoy being outside and still keep your skin safe from skin cancer.

Most skin cancers are caused by too much sunlight. The sun gives off ultraviolet (UV) rays. You cannot see UV rays, but they can hurt your skin. UV rays also come from tanning beds and sunlamps. Over time, they can damage skin cells.

How to protect your skin

The easiest way to protect your skin is by using sunscreen. Wearing long sleeves, sunglasses and a wide-brimmed hat also helps. Try to stay away from tanning beds. If you want your skin to look tan, use sunless tanning lotions or sprays instead.

Check your skin once a month. Look for changes in the size, shape or color of moles or spots. If you notice any changes, call your doctor and make an appointment.

Support for managing long-term health problems

Learn about your condition and get support to feel your best

Living with a long-term health problem can feel hard. You may feel worried or unsure. You are not alone. Learning about your health is the first step to feeling better and more in control.

You may have questions like:

- What is my health condition?
- How does it affect my body?
- What treatments can help me?
- What could happen if I don't make healthy changes?

Our Disease Management program is here to help. It gives you information and support so you can make good choices about your health.

We offer help with many health conditions, including:

- Asthma
- Attention deficit hyperactivity disorder (ADHD)
- Heart disease
- Chronic lung disease (COPD)
- Depression
- Diabetes
- Heart failure
- Hepatitis C
- High blood pressure
- Obesity
- Sickle cell disease

You can visit myuhc.com/communityplan/healthwellness to find tools, tips and support. These resources are made to help you take care of your health with confidence.

Wellness visit

Schedule your child's wellness visit before school starts

Getting ready for school means more than buying supplies. It's a great time to schedule your child's wellness visit.

Wellness visits help make sure your child is healthy, growing on track, and ready to learn. During the visit, your child's provider can also check whether they are up to date on required and recommended vaccinations.

Why it matters

- Vaccines help protect your child from serious illnesses
- Many schools require proof of vaccinations
- Appointments fill up fast before school starts

Scheduling early helps avoid last-minute stress and keeps your child protected.

If you have questions or need help scheduling an appointment, your health plan is here to help.

Mental health

Calm Health

Mind. Body. You.

Introducing Calm Health, a no-cost app that can help UnitedHealthcare Community Plan members boost their mental health.

The Calm Health app allows users to tap into a library of support – including meditation practices, mental health programs, exercises to improve focus, stress management content and more. Get started by downloading the **UnitedHealthcare app** and finding Calm Health on the Coverage and Benefits page or downloading the Calm Health app.

We're here to help

Access your plan 24/7

Find the information and support you need when and where you need it.

UnitedHealthcare App:

Download on the App Store® or Google Play™

Our member website:

myuhc.com/communityplan
