Consumer-driven health plans: changing behavior for the better.

It's becoming more challenging for companies to cover employee health care costs. That's why many companies are now choosing consumer-driven health plans (CDHP), which are designed to **help employees become more informed of and more financially responsible for their health care choices.**

What is consumer-driven health care?

Consumer-driven health care is a term used to describe health plans that are intended to help employees become more involved in their health care choices and take more active control over their health and health care spending. **A consumer-driven plan may be the right choice for your organization, as it may:**

- Help you reduce your health care costs.
- Encourage your employees to make informed decisions about their care.

Consumer-driven health plans may:

- Help you and your employees (UnitedHealthcare members) use health care services more effectively.
- Make paying for health care more affordable.

Our consumer-driven health plan framework includes:

- **100% coverage for network preventive care.**
- **Accurate and current information** about doctors, locations, credentials and ratings to help employees evaluate and compare the quality and cost efficiency of network physicians.
- **High deductible plans** designed to result in more thoughtful use of health care services.
- **Online tools and apps designed** to help employers and employees better manage their health care options, costs and experiences.

Options to help employees manage their health care dollars.

To help manage their own health care spending, employees can take advantage of 2 different types of account based plans.¹

1 Health savings account

A health savings account (HSA) allows employees to deposit pretax money into a bank savings account to use for qualified medical expenses now or in the future. The employer can contribute to the account, but **the employee owns it** and can carry over any unused funds from year to year. **It is not a “use it or lose it” plan.** An HSA must be used with a qualified high deductible health plan. The plan pays for covered services only after the member meets a minimum deductible (usually not including preventive care) and pays the full cost of covered services once the annual out-of-pocket limit is met.

Optum Bank®, member FDIC, is one of the nation’s leading HSA custodians, with more than 3 million accounts and more than \$9 billion in HSA assets.² Plus, only Optum Bank offers the convenience of banking through your health plan website. Learn more about Optum Bank at optumbank.com.

2 Health reimbursement account

A health reimbursement account (HRA) is funded by the employer.

The employer can make contributions that are not included in the employee’s gross income. The employer has the ability to set up the account within certain guidelines set by the IRS. For example, the employer can determine how much to contribute, which expenses can be covered and the amount that an employee can carry over year to year. **The account is owned by the employer** and the funds remain with the employer if the employee leaves the company.

¹ Not all plans or options are available in all states.

² 2018 Mid-Year Devenir HSA Market Statistics and Trends. At Optum Bank®, member FDIC, deposits are insured by the FDIC up to \$250,000.

Plans with a primary care physician to help coordinate care.

These popular plans from UnitedHealthcare allow members to choose a primary care physician (PCP) as their trusted partner in health care, helping them manage their care and providing referrals for specialist services.

Having a PCP to help coordinate their care helps empower employees to maximize the value their plans deliver.

Key features of these plans usually include:

- **Choice and convenience.**
- **Competitive pricing.**
- **Ease of use, with no claims forms or bills for network care.**
- **A broad national network.**
- **Health and wellness tools, services and resources.**

Tiered benefit and other health plans.

Tiered benefit plans come in a range of designs, all intended to help provide savings opportunities for employers. These plan designs help encourage members to make informed health care decisions.

Provider-network-only health plans.

Employees can choose to see any physician, specialist, hospital or health care professional in the network without a referral.

Tiered benefit plans.

These health plans help encourage members to seek care from Tier 1 providers and hospitals, and lower-cost freestanding facilities to get the highest level of coverage. They include UnitedHealth Premium® Care Physicians who have met quality and cost efficiency criteria. UnitedHealth Premium Care Physicians have been recognized for providing quality and cost-efficient care.

Defined-contribution health plans.

A defined-contribution plan like UnitedHealthcare Multi-Choice® allows employers to offer 1, 2 or multiple plans with a defined dollar amount contribution that provides cost predictability for the employer and choice for the employee.

- **Multiple benefit options are available**, including high deductible health plans, plans with copays and HSAs.
- **Your employees choose the plan** that helps meet their needs, whether younger, older, single or with families.
- **You set the amount** that your business is willing to pay for benefits.
- No matter which plans you choose, **your costs as an employer stay the same.**

UnitedHealthcare offers a broad portfolio of health plan choices for your business. Your UnitedHealthcare representative or broker can help you determine which plan may work for you.

Pharmacy care services: Working to help reduce costs and improve health.

Integrating medical and pharmacy benefits allows for better management of your organization's total health care costs. With a complete picture, we can work with you to lower overall health care costs while maintaining a focus on employee health. Simply put, we won't lower pharmacy costs only to see you and your employees pay more in medical expenses.

UnitedHealthcare goes beyond the traditional pharmacy benefit manager to integrate medical and pharmacy into a whole-person approach. This approach adds more value to the overall health care system, thus helping reduce not only pharmacy costs but also total health care costs. We offer a simplified health care experience through proactive and integrated interactions.

Help strengthen your benefit program with vision, dental and other coverage for simplicity and savings.

Consider integrating specialty benefits with your medical plan for more savings and support. You'll have the convenience of one account management team, one eligibility and enrollment process, and one dedicated customer service line. And your employees will have access to a helpful member website.

Specialty benefit plans have flexible funding options to let you choose the plans and contribution strategies (non-contributory or voluntary) for your needs and budget. Purchase products individually or bundle¹ with our health plans for even more savings and simplicity.

Choose any or all of the following specialty benefits:¹

Dental: Plans you can customize to fit your budget and help promote better oral health designed to be more affordable. Includes a growing network of over 104,000 unique providers.²

Vision: Quality vision services from a broad, nationwide provider network. Includes over 85,000 private and retail vision providers including Costco Optical, Target Optical and Warby Parker.²

Financial Protection:³ Ask about adding value to your benefits package by helping employees manage life events that impact productivity, long-term health, health care spending and support HDHP/HSA strategies.

See health plan savings.

When our health plan and specialty plans are purchased together, you can receive bundled savings, which helps lower your health plan cost. The more plans you bundle, the more you can save.

¹ Specialty benefits and programs may not be available in all states or for all group sizes. Minimum participation requirements may apply for bundling programs. Components subject to change.

Virtual Visits: Now your employees can see a doctor whenever, wherever.

Virtual Visits are provided at no additional administrative cost to employers. Members can access a provider anywhere and anytime they need, via a smartphone, tablet or computer.

The Virtual Visits provider groups we contract with deliver care using live video technology based on quality standards aligned with American Medical Association (AMA) and Federation of State Medical Boards (FSMB) guidelines.

With Virtual Visits, employees and their covered family members can see and speak to a doctor 24 hours a day, 7 days a week using a mobile device¹ or computer, wherever they are. If needed, a prescription² can be sent to their local pharmacy. No appointment is necessary—and a visit usually takes less than 20 minutes.³

Virtual Visits can help save time and money.

It's been estimated that 25% of ER visits could be conveniently addressed as a Virtual Visit.⁴ No appointment is necessary. Care is accessible via mobile device or computer—and usually takes less than 20 minutes.³

No additional administrative costs to you.

Virtual Visits are fully integrated with your benefit plan administered by UnitedHealthcare and provided at no additional administrative cost to you, as the employer.

A resource for quality and cost-efficiency information: The UnitedHealth Premium program.

The UnitedHealth Premium® program¹ gives your employees the information they need to help locate quality and cost efficient providers. The Premium designation program can help your employees review their options and make informed decisions when choosing a doctor.

- **The program evaluates physicians across 16 medical specialties and 47 subspecialties** including primary care, internal medicine, pediatrics, cardiology, orthopaedics and more. Currently, the program is available in 45 states.
- **Physicians are measured using national evidence-based criteria** for quality of care and local market and specialty-specific benchmarks for cost efficiency.
- **These specialties account for more than 80% of employers' average medical spending.**¹
- Premium physicians are a part of our existing network.
- For all 16 Premium specialties evaluated in the UnitedHealth Premium program, Premium Care Physicians¹ had 18% lower per episode or per patient cost than non-Premium Care Physicians.²

A physician's UnitedHealth Premium designation is easy to find on myuhc.com® as well as in printed provider directories.

Powerful, easier-to-use solutions for employers.

Employer eServices® is a powerful suite of online tools and resources that **simplifies eligibility management, billing and reporting.**

Employer eServices is fully integrated among employees, physicians and health care professionals to allow HR staff to:

- **Manage transactions**, eligibility information and more in real time.
- **Save time** with online billing and payment options.
- **Improve workforce wellness** with tools like distribution-ready emails, videos, posters and newsletters.

¹ Available in most states. For a complete description of the UnitedHealth Premium designation program, including details on the methodology used, geographic availability, program limitations and medical specialties participating, please see myuhc.com.
