Design a health plan that helps fit your needs

UnitedHealthcare Select and Select Plus plans provide the same great flexibility and national network access as our Choice and Choice Plus options. Members are not required to obtain referrals for eligible services from specialists and have direct access to any Select network primary care physician (PCP) or specialist. However, every Select and Select Plus member is encouraged to choose a PCP during open enrollment. If they don’t pick one, a PCP will automatically be provided once enrolled.

Network-only or network/non-network plans

Select is a network-only plan
Members may choose a PCP from our broad provider network to coordinate care, provide guidance and help identify a preferred specialist if needed. However, a referral is not required to see a specialist. (Non-network services may be covered in an emergency.)

Select Plus adds a non-network option
This plan features the same benefits as Select but also provides non-network coverage. Copayments and coinsurance may be different for non-network care, and there may be separate deductibles and out-of-pocket limits for network and non-network coverage.

Greater use of primary care is associated with:¹
• Lower costs
• Higher patient satisfaction
• Fewer hospitalizations and emergency department visits
• Lower mortality

Built for lower costs and better health
Designed to help manage spending
Select and Select Plus plans help your employees manage their health care spending on essential prescriptions and physician and hospital services. They can also help to keep costs lower in the long term by using preventive care services. Employers may benefit from a healthier, more satisfied and more productive workforce.

More value in one
With a PCP, members have direct access to the full provider network and can see any physician, specialist, hospital or other health care professional in the network. Select Plus plan members have coverage for non-network services, although their out-of-pocket costs may be higher. When members use a network provider, there are no claim forms to fill out or bills to handle.

Your employees can take advantage of:

- **24/7 Virtual Visits**
  Conveniently connect with a provider by phone or video* for a wide range of urgent, nonemergency medical conditions—from flu and pinkeye to migraines and allergies—and get a prescription,** if needed

- **myuhc.com and the UnitedHealthcare® app**
  - Find care and costs
  - See claim details and view progress toward deductibles
  - View and share health plan ID cards

- **Personal support**
  Call the toll-free number on the ID card to connect with customer service professionals for answers and information

Contact your UnitedHealthcare representative for more information

---
