

Save money by using Preferred Lab facilities.

With the Preferred Lab tiering benefit, you can visit any outpatient facility designated as a Preferred Lab. They meet higher quality standards and reduce your total cost of care. You may even receive services at **zero cost**—depending on your plan benefits.

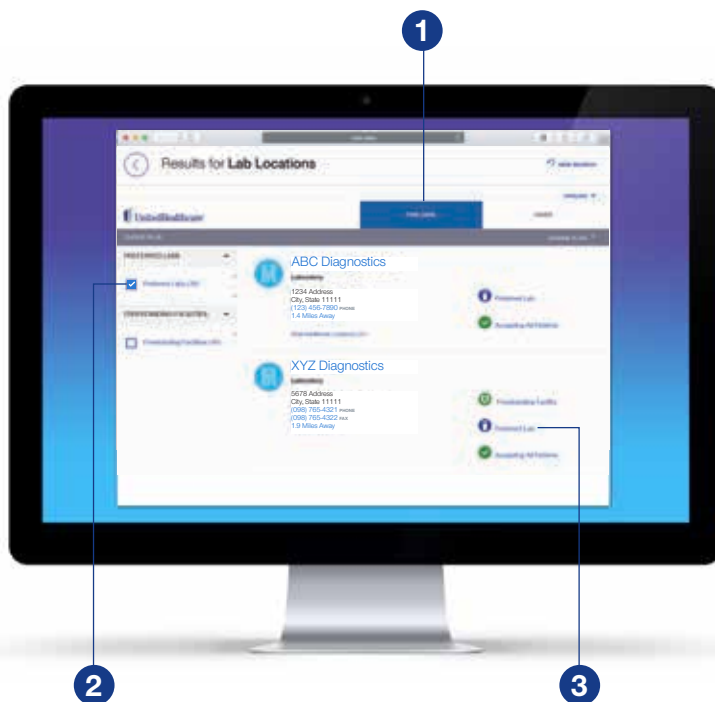

Ask your doctor:

- Do you know the cost of the tests you're ordering?
- Can the test be performed in a Preferred Lab? It can help me save money.
- Can you recommend a Preferred Lab in the UnitedHealthcare network?
