2020 New York Oxford Small Business (1-100) Plans

New York
Small Business (1-100) Oxford Products
Effective Jan. 1, 2020

¹Primary care physicians (PCP) include Family Practice, Internal Medicine, Obstetrics-Gynecology and Pediatrics.

²Virtual visits are available for new groups effective 5/1/2020 and existing groups upon renewal starting 5/1/2020.

³Non-embedded deductible plans reflect family deductible, meaning no individual in the family has satisfied the deductible until the entire family amount has been met. Embedded deductibles mean all individual deductible amounts will count toward the family deductible, but an individual will not have to pay more than the individual deductible amount.

⁴An additional charge may apply when a higher tier prescription drug is dispensed at the member or the member's provider's request, when a chemically equivalent prescription drug is available on a lower tier. The member will have to pay the difference between the cost of the higher tier prescription drug and the cost of the lower tier prescription drug. The cost difference must be paid in addition to the lower tier copayment or coinsurance. The member is responsible for paying the full cost (the amount the pharmacy charges the member) for any non-covered prescription drug and our contracted rates (our prescription drug cost) will not be available to the member.

⁵For Oxford MTRO EPO plan designs, once the in-network deductible has been satisfied by an individual, the applicable medical coinsurance will apply based on the selected plan. If the individual is enrolled as a couple, parent/children or family and the family deductible is met, then no further deductible is required, and the applicable medical coinsurance will apply based on the selected plan.

⁶For Oxford MTRO EPO HSA plan designs, all in-network medical and pharmacy services are subject to the in-network deductible. Once the deductible has been satisfied, the applicable medical coinsurance and prescription drug copayment will apply based on the option selected at plan inception. No individual enrolled as a couple, parent/children or family may satisfy the deductible until the entire family deductible has been met. Each individual enrolled as a couple, parent/child(ren) or family will be capped at his or her individual out-of-pocket limit for covered services within the deductible accumulation period. The remaining family members will continue to accrue until they satisfy their individual out-of-pocket limit or the family out-of-pocket limit is reached.

Note: For Health Savings Accounts (HSA), copayments will not apply until after the deductible has been satisfied.

Note: For Pharmacy plans with a deductible, the deductible does not apply to Tier 1 medications, with the exception of New York standard pharmacy plans and HSA pharmacy plans.

In 2020, maximum HSA contribution is \$3,550 single/\$7,100 family. These amounts are subject to change by the IRS and do not include catch-up contributions for subscribers aged 55 and over.
