Important topics to discuss with your PCP

Take the opportunity to address health concerns or important topics with your PCP during your visit. Prepare for your appointment by completing the information below and write down recommendations your PCP has during your visit.

Medications

- List the prescription drugs, over-the-counter medications, supplements and vitamins you're taking. Consider asking if there are lower-cost options available and be sure to let your PCP know if you're having trouble getting your medications.

Care team

- List any specialists and other providers you see. This will help your PCP coordinate your care.

Tests and treatments

- List the tests ordered during your appointment. Ask when you can expect results and how they'll be communicated.

Other health concerns

Mental health

- Let your PCP know if you're feeling sad or blue, or are having difficulty sleeping.
- Or, any challenges you're experiencing in planning, or memory loss that disrupts daily life.

Physical health

- Discuss your physical health with your PCP, including if you're experiencing pain that interferes with your regular activities, work or social life.

Bladder control

- I have problems with bladder control
- I have problems with leaking of urine
- I don't have bladder control or urine leakage problems

Risk of falls

- I have had one or more falls
- I have problems with balancing or walking
- I don't have problems with balancing or falling

Physical activity

- Start exercising
- Modify exercise
- Maintain current exercise level
