

Louisiana notices

State of Louisiana Breast Reconstruction

As required by the State of Louisiana, Benefits under the Policy will include breast reconstruction of the breast on which a mastectomy has been performed and on the other breast to produce a symmetrical appearance, including but not limited to contralateral prophylactic mastectomies, liposuction performed for transfer to a reconstructed breast or to repair a donor site deformity, tattooing the areola of the breast, surgical adjustments of the nonmastectomized breast, unforeseen medical complications which may require additional reconstruction in the future, and prostheses and physical complications, including but not limited to lymphedemas. All stages of reconstruction of both breasts if a bilateral mastectomy has been performed, including but not limited to liposuction performed for transfer to a reconstructed breast or to repair a donor site deformity, tattooing the areola of the breast, unforeseen medical complications which may require additional reconstructing, and prosthesis and physical complications, including but limited to lymphedema.

State of Louisiana Preventive Cancer Screening

As required by the State of Louisiana, Benefits under the Policy will include a cancer screening, on no less than an annual basis, to qualified Covered Persons who were previously diagnosed with breast cancer, completed treatment for the breast cancer, underwent bilateral mastectomy and subsequently determined to be clear of cancer.

The amount you must pay for such Covered Health Care Services (including Co-payments, Co-insurance and any deductible) are the same as are required for any other Covered Health Care Service. Limitations on Benefits are the same as for any other Covered Health Care Service.
