PIOGLITAZONE (15MG, 30MG, 45MG)

If you are taking a single pill that contains multiple medications, your cost may be lower if you take your medications in separate pills instead of a single pill. For example, glipizide and metformin are available together in a single pill, but you may save money by taking glipizide and metformin in separate pills. Once your plan is active, you can price your medications at **myuhc.com/exchange**. If this saves you money, talk to your healthcare provider.

Hypoglycemia (low blood sugar) – $0

Your plan covers certain medications for a low blood sugar emergency.

BAQSIMI
GLUCAGON (GENERIC GLUCAGON KIT)
GVOKE (HYPOPEN, KIT, PFS)

Frequently asked questions

Which diabetic supplies are covered?

In addition to prescription coverage, your plan's medical benefit may also cover some diabetic supplies, like continuous glucose monitors. All forms of continuous glucose monitors are provided when clinical guidelines are met and when obtained from sources designated by your health plan. Insulin pumps and insulin pump supplies are provided when clinical guidelines are met and when obtained from sources designated by your health plan. Call the phone number on your health plan ID for more information.

Do I need to meet my deductible to get medications and supplies at $0?

For the medications and products listed as $0, even if your plan has a deductible and you haven't met it, your cost-share is still $0 when filled at a network pharmacy.

What if my medication or diabetic supply requires a prior authorization or is not covered?

If your health care provider (doctor, nurse practitioner, etc.) determines you need a medication or product that requires a prior authorization or is not covered, they can let us know your medication is medically necessary and provide information about your diagnosis and medication history:

- Online: **professionals.optumrx.com/prior-authorization**
- By phone: **1-800-711-4555**

Where can I get more information about pharmacy drug coverage and costs?

Visit **myuhc.com/exchange**. You can also call the phone number on your health plan ID. Health care providers can visit **uhcprovider.com/exchange**.

*While we have attempted to provide a comprehensive list of $0 covered diabetic supplies, it is always recommended that you refer to your benefit plan materials to determine your coverage for medications and their cost share. Where any differences are noted, the benefit plan documents will govern. For certain drugs as indicated on the Prescription Drug List, UnitedHealthcare limits the amount of the drug being filled per copayment or over a certain period of time.

Where differences between this document and your benefit plan exist, the benefit plan documents rule. This may not be a complete list of medications that are covered by your plan. Please review your benefit plan for full details.
