

Health plans built to go farther

Benefits designed to deliver more value
for your business

Dear <EmployerFirstName>,

Finding health benefits that work better for both your business and employees can make a big difference—in everything from your budget to employee recruiting.

Before you renew your current plan, put it up against one from UnitedHealthcare and see which one comes out on top. With a variety of plans to choose from, a UnitedHealthcare benefits package can be built around your business, offering:

- **More ways to save**, with a wide choice of plans built to fit your budget and tools employees can use to compare costs and treatment options
- **A choice of networks**, from the nation's largest proprietary network¹ to regional provider network options
- **A simpler health care experience** for employees, with wellness and rewards programs designed to help them get healthier, 24/7 Virtual Visits and tools like myuhc.com[®] and the UnitedHealthcare[®] app that help them access care and details about their benefits anytime
- **Simpler administration** for you, with real-time access to eligibility and billing, onboarding tools, claims and more
- **Deeper savings** when you offer UnitedHealthcare specialty benefits like vision and dental alongside a UnitedHealthcare medical plan

For more information on a group health plan built to go farther for your business and employees, connect with us or your broker before you renew.

Sincerely,
