Overview

UnitedHealthcare Navigate® plans

The Navigate suite of health plans is available to people who live in the Massachusetts ZIP codes listed below. They all offer the same doctors, clinics and basic health care coverage. The difference is the cost you will pay. Look closely at your options to see which plan is right for you.

With these Navigate plans, you have access to:

Coverage of 10 essential health benefits, including preventive and hospital care services, lab tests, prescriptions and more. Learn more at healthcare.gov/coverage.

Preventive care, which covers things such as annual checkups, flu shots and mammograms. (Covered 100% when you use a doctor in the Navigate network.)

A network of doctors, clinics and pharmacies in your area.

An online provider directory uhc.com/xmadocfind2023 to help you find participating providers and pharmacies.

Tools and resources like online prescription drug list search tools uhc.com/xmadruglist3tier2023 and uhc.com/xmadruglist4tier2023 to help save time and money.

To qualify for enrollment and maintain coverage, you must live in one of these ZIP codes

Things to check before choosing our plans

Primary care providers (PCP)

Navigate plans require that you team up with a PCP. **You must use a PCP in the Navigate network** for yourself and each member of your family enrolled in the plan. Visit uhc.com/xmadocfind2023 to see if your doctor is in the Navigate network.

You must get a referral from your PCP before you see another network doctor or specialist. This will help you avoid unexpected costs. Your PCP can refer you to any doctor or hospital in the Navigate network.

Make sure you stay in the Navigate network. If you go outside of the network, you'll be responsible for paying all of the costs for services. Going out of network includes doctors (including specialists), labs, hospitals, pharmacies or medical clinics (like urgent care).

Prescriptions and pharmacies

You must use a network pharmacy. You can find a list of network pharmacies at uhc.com/xmadocfind2023 within the Pharmacy Directory section.

Use the Prescription Drug List (PDL) at uhc.com/xmadruglist3tier2023 and uhc.com/xmadruglist4tier2023 to see if your prescription medications are covered and how much they will cost. The price will vary depending on the plan you choose and the tier (cost level). The lower the tier, the more money you may save.

Make sure you carefully view your plan documents on MAhealthconnector.org to better understand the cost of your medications and if they're covered.

How coverage works

What will I pay?

There are many types of costs to think about when choosing health coverage in addition to your monthly premium. These costs will vary depending on the coverage option you choose. Reviewing the coverage and cost details of your options on the Massachusetts Health Connector will help you better understand how these costs work together.

Ways you can save

Financial assistance

As you're comparing your options on the Massachusetts Health Connector, keep in mind some other ways you may be able to save with financial assistance including premium tax credits or other state and federal programs. The Massachusetts Health Connector will determine if you qualify for assistance and the types of plans available to you. Apply online to see if you qualify.

Advance premium tax credit

When you apply for coverage online through the Massachusetts Health Connector, you'll find out if you qualify for an advance premium tax credit. **This credit lowers your monthly health plan payment.**
