Find a primary care provider and save money with myuhc.com.

Using doctors, hospitals, pharmacies, labs and other providers and facilities in your health plan’s network can help lower your health care costs.

Here’s how:

1. Sign in to myuhc.com®. You can create an account by choosing Register now.
2. Click on Find a Doctor to search for a network doctor or facility.
3. Click on Medical Directory.
4. Select the type of Medical Care, or enter name and click Search.
5. Click on People to locate a primary care physician, or enter doctor name and click Search.
6. Click on Primary Care.
7. Choose which type of primary care provider.
8. If you already know the doctor name, medical group or hospital you are looking for, enter that name in the open filter field and click Filter.

Things to note:

• If you do not have a doctor’s name, specialty, facility name or medical group in your designated ZIP code area, or you are searching for a new one, click on the People tile and follow the steps to find a new doctor.
• For some plans, you will need to select a primary care physician (PCP) at the time of enrollment. If you do not select a PCP during enrollment, a PCP in your geographic area who is accepting new patients will be selected for you.
• Once you have selected your PCP, click on the Enrollment Information tab.
Under the **Enrollment Information** tab, you will find the Provider ID—the 14-digit number listed under the Medical Group name (e.g., 00000999999 099). Please indicate the PCP’s name and Provider ID on your enrollment form.

**Important:** Some PCPs may have more than one Provider ID based on their medical group, location or hospital affiliation. Please be sure you select the Provider ID that aligns with the medical group, location and hospital of your choice.
