

# Greater access with NHP Network Flex

Neighborhood Health Partnership (NHP) Network Flex plans — direct access point-of-service plans designed for members who temporarily spend time outside of their NHP approved service area.

## How the NHP Network Flex plans work:

- NHP members must live and/or work in an approved NHP service area and must seek services from the NHP network of providers and facilities when within the NHP service area.
- NHP members will need to select their network primary care physician; however referrals to specialists are not required.
- NHP members traveling to or temporarily residing outside of the NHP service area will utilize the UnitedHealthcare Choice Plus network for non-emergent care — including primary care, specialists, urgent care and pharmacy services — at the member's network benefit level
