How Medicare Supplement plans work with Original Medicare

Once you understand the different parts of Medicare and what they cover, it's easier to see how Medicare Supplement plans – also known as **Medigap** – can help.

PART A + PART B	PART C	PART D	MEDIGAP
Original Medicare	**Medicare Advantage**	**Prescription Drug Coverage**	**Medicare Supplement plan**
• A federal health insurance program for Americans aged 65 and over. • You may be eligible earlier if you have a disability or End-Stage Renal Disease. • Includes both Part A (which gives you hospital coverage) and Part B (your medical coverage).	• An all-in-one alternative to Original Medicare Parts A and B. • Usually offers additional benefits not included in Parts A and B, such as prescription drug coverage (Part D). • Plan benefits may change annually, so you may need to shop for a plan on a yearly basis.	• Helps pay for your prescription drugs. • Some Medicare Advantage plans include Part D coverage; if not included, it can be purchased separately.	• Purchased in addition to Original Medicare. • Helps with many of the costs that Original Medicare doesn't pay, such as copays, coinsurance and deductibles. • Coverage that's guaranteed for life.* • Lets you see any provider that accepts Medicare patients – meaning no network limitations.
Typically, Medicare Part B only covers about 80% of your medical expenses.	**Many plans restrict you to certain providers and may not cover unexpected expenses.**	**You can purchase a Part D plan along with a Medicare Supplement plan for more complete coverage.**	**A Medigap plan can help limit your out-of-pocket costs, which could add up quickly.**

*As long as you pay your premiums when due and you do not make any material misrepresentation when you apply for this plan.

Fill the gaps of Medicare

The out-of-pocket costs not paid for by Original Medicare could add up to thousands of dollars a year. With the predictability of a Medicare Supplement plan, it'll be easier to plan your budget.

There are a variety of Medicare Supplement plans available, with **Plan G** being the most popular since it offers the most comprehensive benefits. Coinsurance and hospital costs are covered at 100%, and your only responsibility would be the annual Medicare Part B deductible.

	What you pay with Original Medicare alone	What you pay with Original Medicare + Medicare Supplement Plan G
Part A hospital deductible	$1,736	$0
Part B medical deductible	$283	$283
Doctor visits	about 20% of the Medicare-approved amount	$0
Days 61–90 in the hospital	$434 a day	$0
Days 21–100 in a skilled nursing facility	Up to $217 a day	$0

How can a Medicare Supplement plan help me?

The biggest benefit is peace of mind

With a Medicare Supplement plan, you'll avoid shopping for or renewing your plan each year, needing to find a new doctor, or unexpected network changes. Once you're enrolled, you're set.*

More predictable out-of-pocket costs, and plan options with low copays

Like your current doctor? Keep seeing them if they accept Medicare patients

Plans travel with you throughout the U.S., so you can get care on the road

No networks to worry about, and no referrals needed for specialists

Get guaranteed coverage for life. Your plan can't be canceled because of your age, health or the number of claims you make*

*As long as you pay your premiums when due and you do not make any material misrepresentation when you apply for this plan.

Benefits and costs vary depending on the plan chosen.

†Only available for individuals first eligible for Medicare before 2020.

[4]Medicare Part B coinsurance (generally 20% of Medicare-approved expenses) or copayments for hospital outpatient services. Plans K, L, and N require insured to pay a portion of Part B coinsurance or copayments.

[5]Note: Plan N pays 100% of the Part B coinsurance, except for a copayment of up to $20 for some office visits and up to a $50 copayment for emergency room visits that don't result in an inpatient admission.

[6]In New York, excess charges are limited to 5%.

[7]Benefit is 80% and beneficiaries are responsible for 20% after the $250 annual deductible with a $50,000 lifetime maximum. Benefits are defined as medically necessary emergency care services beginning during the first 60 days of each trip outside the U.S.

[8]For Plans K and L, after you meet your out-of-pocket yearly limit and your yearly Part B deductible ($283 in 2026), the Medicare Supplement plan pays 100% of covered services for the rest of the calendar year.

What about Medicare Advantage?

You may have seen advertising for Medicare Advantage plans and for some people, it may be a good choice. It's important to remember that although a Medicare Advantage plan may have a $0 premium, it doesn't mean that the plan is free.

Here are the main differences between Medicare Advantage and Medicare Supplement plans

Medicare Advantage

With a Medicare Advantage plan, you still have to pay for many out-of-pocket costs, including copays, coinsurance and deductibles up to an out-of-pocket limit as high as $9,250.[9]

- Your benefits and rates may vary widely from year to year.
- You may have to use in-network doctors and hospitals.
- You might need referrals for specialists.

Medicare Supplement plans

A Medicare Supplement plan helps keep you in control, since you don't need to find a new doctor, shop for a plan each year, or worry about annual benefit or network changes.

- More predictable medical costs and low copays.
- Choose your hospital and doctor as long as they accept Medicare patients.
- No referrals needed for specialists.
- Guaranteed coverage for life.*

[9]$9,250 in 2026 for in-network and may be even higher for out-of-network services. There are Medicare Advantage plans that charge less. Your actual costs will depend on how much care you need.

*As long as you pay your premium when due and you have made no material misrepresentations when you apply for this plan.
