

UnitedHealthcare Copay Card Solutions: Accumulator Benefit

For specialty medications filled at Optum Specialty Pharmacy

You may be taking a medication that has a copay card available from the drug manufacturer.

You can continue to use this card at Optum® Specialty Pharmacy to help reduce your out-of-pocket costs. But, the dollar value of the card will no longer apply toward your deductible or out-of-pocket maximum under your plan. Only the dollars you actually pay out of pocket will count toward your deductible and out-of-pocket totals.

How it worked before

makes sure that only the dollar amount you pay applies to your copay and out-of-pocket totals, not the amount paid by the drug manufacturer's copay card or coupon.
